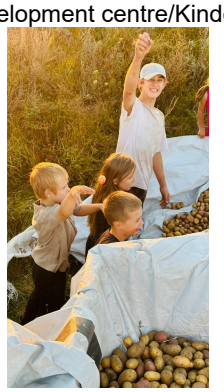
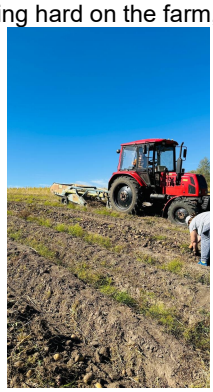
Dear friends of Ukraine!
Receiving this means you have already helped or are considering helping Ukraine. Anyway, we are GRATEFUL for your willingness to help Ukrainian people in this horrible period of russian military aggression and global challenges! Our primary focus is on h**elping kids and veterans with Medical and Mental Rehabilitation**.

Those of you who regularly follow my **Rotary Club of Kyiv-Capital** Facebook page have received our news as soon as it becomes available
>> https://www.facebook.com/Rotary.Kyiv.Capital

Since my last Newsletter in September, we have had many good activities with your help. THANK YOU VERY MUCH TO THOSE WHO PARTICIPATED!

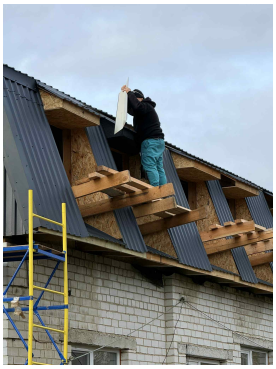
1) We purchased and delivered new windows, internal doors, and other construction materials for the Mansard in the **SOKOL** Family development centre/Kindergarten. After working hard on the farm, they were VERY kindly impressed :)





Special THANKS to Mettmann RC (Germany) and David Stewart and his Cumorah Foundation (USA) for their two $5000,00 donations!!!

The Sokol team is working hard now in preparing for the Winter cold.



2) Many thanks to LauraAnderson and @AnneliLillmaa from the #UkrainasvänneriUddevallaGroup for the wonderful play sets that we have already donated to the foster care facility.

3) We sincerely thank the Rotarians and parishioners of the Pingstkyrkan church from Uddevalla (Sweden) for their strong support of the boarding house for refugees and the elderly in the Khmelnytskyi region!
Magnus Jakobsson @StefanSvensson @JorgenAlansson @EmilTorstesen @HaraldKlomp
Friends, your help is very important for Ukraine right now!
We also thank our friends from the "Krapka Vydliku" Foundation for their reliable service!

4) The same convoy delivered the first 13 generators from Swedish friends. THANKS A LOT!!!

We already distributed them all to the East, and all friends are VERY HAPPY!!!

5) It's a pity to say, we still don't have an official Project and Calculation for the Bomb Shelter in the ROMASHKA Kindergarten in Ichnya town. The problem is that this kind of document could be provided only by the specially authorised architects and engineers. And now, due to the war, many specialists are serving in the military. But without this certified Project, the local Community cannot finance the repair works. They are still waiting for the specialist to make the Project and Calculation. The other problem they (Ichnya Council) have is a lack of funds for all the needed materials and equipment (as they can assume even without the formal project calculation)...

We discussed the situation at the board meeting and decided to ask our worldwide friends to start donating as much as you can. The total need is approx. $106th. Maybe half of that will fund the Community.
And it will be good to start purchasing with the money we will receive. The Lord still blesses us with good weather so we can begin purchasing construction materials, ventilation equipment, kids' furniture, TV screens, and other items. The works will be funded by the local budget anyway.

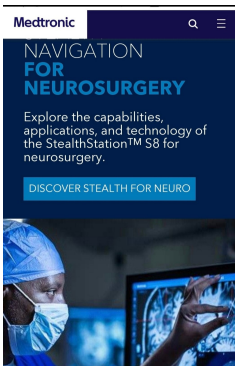
Of course, as usual, we'll inform you with photos and document scans.

By the way, who wanted to join the Annual Team of St. Nikolas assistants, you're also welcome! We have already started to draft our December tour agenda :)

God bless you, friends!

PS I attached our State registration, Non-Profit, and Bank acc docs in EUR, USD, and SEK - as you'd like :)

PPS We are still looking for a special medical tool. One of the first Ukrainian Roatrians, Neurosurgeon Doctor, Academic and Director of the Medical Center, Volodymyr Rozumenko, asked for help - he needs a Neurosurgeon System and Planning Station (could be used, but in good condition). Maybe some of your friends or relatives are related to these tools and can help?



Yours

Rost Lukach
